Real Stone, Professionally Installed

Create professionally installed natural stone surfaces in a fraction of the time of traditional veneer systems. These panels interlock to hide the joints to create a seamless look. Corner pieces further the ease the installation and provide the appearance of a natural stacked-stone masonry wall. Natural stone is set into mortar and each panel is shaped so they can be assembled quickly on any surface prepared for thin veneer installation. **Two styles are available:** Berkshire and New England.

Back of panel is a rough surface for better adhesion

Easy to Buy, Easy to Install

Your dealer has all the tools and materials you need to create a natural stone masterpiece. The hard work of selecting and placing individual stones is done by professionals in a controlled production facility. Experienced masons and do-it-yourselfers can finish an installation is less than half the time compared with using loose veneer products.

Be sure to ask your dealer to recommend the best method to install this product including the backing structure, the adhesive, special tools and skills you may need to complete a job.
